SPRD Value Statement as presented to STM 11/19

Lexington seeks to encourage greater diversity of housing opportunities to meet the needs of a diverse population with respect to income, ability, accessibility needs, number of persons in a household and stage of life. Lexington seeks to fulfill this goal while preserving its cultural and historical values and promoting growth that is sustainable and sensitive to the natural environment.

Lexington is mindful of supporting development that preserves historically or architecturally significant buildings and landscape. The Town recognizes that not all of these values can be applied to all sites but is committed to evaluating each site as an opportunity to contribute to serving and promoting these values Town wide
